

2020 SME Chapter 57, Kansas City Area Academic Scholarship Announcement

Each year, thousands of students prepare for a lifetime of dedicated service to fields in Science, Technology, Engineering and Math (STEM). To recognize and reward Tomorrow's brightest STEM talent, SME Chapter 57 has created (2) \$1,000 scholarships. These scholarships will be awarded as follows:

- (2) \$1,000.00 scholarships will be awarded to a graduating high school senior who has taken STEM courses at an accredited institution in the Kansas City area. See the on-line scholarship application for the awarding preferences.

The scholarships will be awarded based on a short-written essay, academic performance, and demonstrated potential in a STEM career field. The scholarships are designed to provide motivation for students to work toward achieving their goals and build awareness of STEM fields with unlimited potential as a career path.

A complete scholarship application includes the following information:

1. Please complete and submit the scholarship application – see link below.
2. Provide an official transcript with your application.
3. Provide at least one (1) letter of recommendation with a maximum of three (3) letters of recommendation. The one letter of recommendation must come from a faculty member. The other letters may come from SME members and/or other faculty members at your school. The recommendation letter(s) should provide evidence/examples of the applicant's exemplary integrity, ethics, initiative, service to others and career potential.
4. Scholarship applications and the other required documents must be submitted to [2020 SME Chapter 57 Scholarship Application](#) by Midnight CDT on November 30, 2020.

The selection of the scholarship recipients will be made by a committee appointed by the SME Chapter 57 Board of Directors. The scholarship winners will be notified via telephone and email by December 18, 2020.
